## PROJECTS

### Social Media Website

This is a vibrant and user-friendly social media platform that allows users to connect, share, and engage with friends, family, and acquaintances from around the world. Powered by the MERN stack (MongoDB, Express.js, React, and Node.js), it provides a seamless and responsive user experience that caters to the modern social networking needs of today's internet-savvy users.

FULLSTACK(MERN)

### Image Search Website

This website offers a platform where one can find hundreds of related pictures for school/college projects and life projects. The functioning of the website includes entering a keyword and getting the desired images. The project uses an API call to access the data from other source and provide it to the user.

HTML | CSS | javaScript

### Portfolio Website

As the name implies, this project is a thorough portfolio of my accomplishments from elementary school to college. It provides a glimpse into my development as a committed and adaptable student. It showcases all the projects made by me with my skill set . It demonstrates that I am eager to learn new things and that I give my all to every task.

HTML | CSS | javaScript
